

Tunnel 2nd clean! 9am with a bucket of hot water, froze me up and unders off!

Better...but not clean enough for me, I think the tunnel cleaner is for plastic!

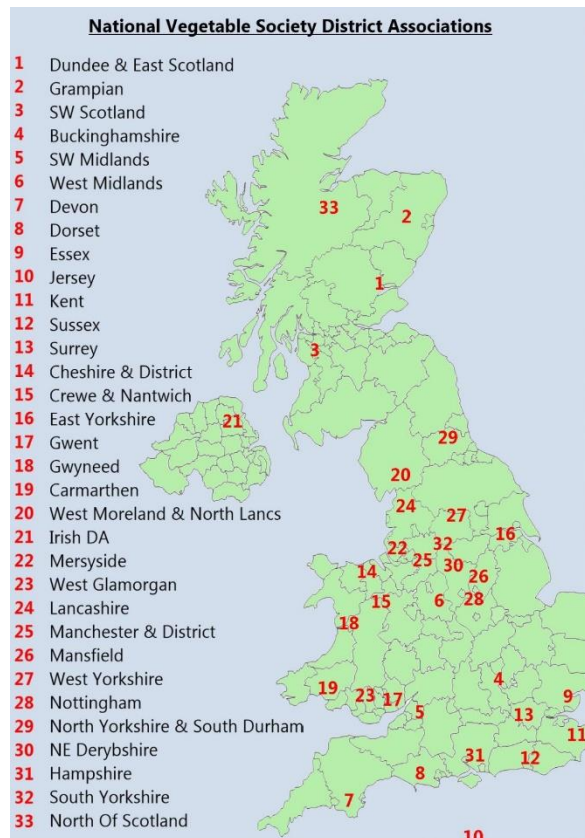

My last stored apple!

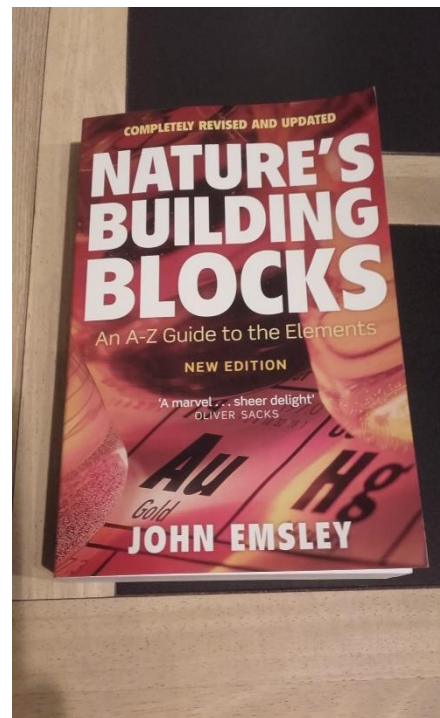

Still waiting for a reply about talking at BBC Gardener's World Live again

A late xmas box...better than socks!

My eldest and myself have been busy over the weekend doing these for you, a list of the NVS district associations within the UK

Contact details for those district associations

Found this out, rhubarb wine...covered in dust with no air in tube! Should of been bottled 2 years ago

Tried it first...brill. 3 year's worth of show wine and a spare for me mate Gareth

Growing cabinet in loft, large onions and pot leeks, behind most of the other big boys! Will be OK for our local show anyway

Compost bin today, carpet removed...worms on top is a good sign
